About Me

Pursuing B.Tech in Computer Engineering with a focus on Data Science, passionate about AI-powered applications, data visualization, and building innovative software solutions. Eager to contribute to impactful projects and continuously learn new technologies.

Education

Ramrao Adik Institute of Technology, D. Y. Patil Deemed to be University <i>B.Tech in Computer Engineering (Major: Data Science), CGPA: 7.99/10</i>	July 2022 – Present <i>Navi Mumbai, India</i>
Pillai HOC Junior College of Arts, Science and Commerce (Mahatma Education Society) <i>12th Grade (Science Stream, Maharashtra State Board), Percentage: 79.17%</i>	May 2020 – July 2022 <i>Rasayani, Maharashtra</i>
Pillai HOC International School (Mahatma Education Society) <i>10th Grade (CBSE Board), Percentage: 91.8%</i>	May 2018 – April 2020 <i>Rasayani, Maharashtra</i>

Projects

US Accidents Analysis Dashboard <i>Python, Pandas, Seaborn, Power BI</i>	February 2025
- Analyzed over 5M US traffic accident records and visualized trends using interactive Power BI dashboards. - Created state-wise heatmaps, county rankings, and weather-based severity analysis to extract actionable insights. - Implemented trend lines and interactive slicers to filter accidents by city and severity.	
LeafLens – AI Plant Disease Diagnosis App <i>Flutter, TensorFlow Lite, SQL</i>	July 2025
- Developed an AI-powered app for real-time plant disease detection with high accuracy using TensorFlow Lite. - Built a cross-platform mobile app with Flutter featuring an intuitive UI and offline functionality. - Managed plant and user data efficiently using SQL for structured storage and retrieval.	
SwiftFill – Google Form Autofiller Chrome Extension <i>JavaScript, Chrome Extensions API, HTML, CSS</i>	August 2025
- Developed a Chrome extension to autofill Google Forms using saved user information for faster form submission. - Implemented local storage-based secure data handling, offline functionality, and support for text, radio, dropdown, and checkbox fields. - Designed a minimal and user-friendly UI for seamless one-click form filling.	
Cafe Finder <i>JavaScript, HTML, CSS, Leaflet.js, OpenStreetMap API</i>	September 2024
- Built a real-time cafe discovery web app with interactive Leaflet maps and animated pins using OpenStreetMap API. - Implemented location-based search, dynamic cafe cards with ratings, and a modern gradient UI for engaging user experience. - Developed a fully client-side application with zero backend dependency.	

Technical Skills & Certifications

Languages: Python, Java, JavaScript, HTML, CSS, SQL	AWS: AWS Academy Graduate - Cloud Architecting
Frameworks & Libraries: React, Flutter, TensorFlow, Seaborn, Matplotlib, Pandas, NumPy	Oracle: OCI 2025 Generative AI Professional (1Z0-1127-25)
Tools: Power BI, Git	IBM: Data Analyst Professional Certificate (EDX) – Python, SQL, Excel, Cognos; completed analytics projects
Technologies: Data Visualization, Web Development, Mobile App Development, AI, Machine Learning, Data Analysis	DavidsonX: Data Visualization with Power BI (EDX) – Executive dashboards storytelling
	Accenture: Software Engineering Simulation (Forage) – Agile, architecture, testing
	Tata: Data Visualization Simulation (Forage) – Business insights dashboards

Achievements & Extracurriculars

- Presented conference paper “**LeafLens: AI-Integrated Plant Disease Detection and Personalized Care through a Multilingual Chatbot**” at **ICATeS 2025**.
- Volunteered as computer literacy instructor for 50+ underprivileged students.
- Member of **CSI RAIT Techfest publicity team**, reaching 2,000+ students across colleges.
- Won **2nd place (Silver Medal) in Shotput** at School-level.
- Attended **HR Conclave**, gaining insights on professional development and industry trends.

Hobbies & Interests

Programming, Sudoku, Reading, Painting, Learning new languages to speak

Languages Known

English, Hindi, Marathi, Kannada
